Drawing smiles on the faces of families

To empower families and communities to make changes that improve children's life chances

We're different; we operate a 'Barefoot Professional' model which means that our trained staff have experienced and overcome the same or similar issues to those families who they'll support.

Improving life chances for children and families

Sponsor your own Family Entrepreneur

We are launching a 'Sponsor a Family Entrepreneur' programme that is aimed at businesses like yours.

If you wish to take part, we invite you to make a donation of between **£3000** and **£10000** per year, which will be grouped together, in order to raise enough money to cover the cost of employing a Family Entrepreneur.

Our Family Entrepreneurs are local people living in the disadvantaged communities that we serve, who offer support to families who were in a similar situation to themselves.

This support largly includes helping families with multiple issues who are generally at their lowest point and where childrens life choices are most reduced.

Three advantages of making your buisness' charity Family Gateway

1. You can see directly where your funds are being spent
2. You can feel personally involved in the work being carried out through your donation
3. You can mmet your Family Entrepreneur and beneficiaries and become involved in developing the project you are supporting
